ABOUT ME

Bachelor degree in Information Systems, I have always considered myself a lover of technology and software development. Focused on the agile side, I have about 5 years of experience in web applications (.NET), software development & enhancement, and service delivery. I am always searching smarter ways to build applications that meet the needs of users in the best way possible.

COURSES ABROAD

11/2016 - 03/2019

Cultural Exchange in Australia

Cultural exchange with the aim of improving the English language and getting to know new cultures, **having a significant development in the language since Elementary level (A1) to Upper Intermediate level (B2).**

Courses held at Greenwich College and Discover English in Melbourne/ Australia for one year, and interacting 100% of the time with natives and students of other nationalities.

By the end of the language studies, I've also attended to a IT course (Diploma in Information Technology) for one year and a half, to improve the technical vocabulary and develop personal networking.
